PREPARATION INSTRUCTIONS FOR RODENT TREATMENTS

Dear Resident,

A professional Pest Control Technician will be at our complex on _____ between the hours of _____ AM/PM and _____ AM/PM.

THE FOLLOWING PROCEDURES MUST BE COMPLIED WITH IN ORDER TO SERVICE YOU OR YOU WILL FORFEIT THIS SERVICE AND BE CHARGED ACCORDINGLY.

PREPARATION REQUIREMENTS:

You are required to complete the following preparations:

- Please remove all food off of the counters and stove to eliminate food sources and attractant.
- Store food in airtight containers or in the refrigerator.
- Take the trash out each night.
- Declutter to remove potential rodent harborage areas and to make early detection easier.

In order to control rodents it is important use an Integrated Pest Management approach, along with our pest control efforts it is important to prepare properly.

Please notify the manager if you are unable to meet these specific requirements at least one day prior to your appointment. If you have any questions, please contact your community manager.

THANK YOU FOR YOUR COOPERATION

State law requires that you be given the following information:

CAUTION: PESTICIDES ARE TOXIC CHEMICALS. Structural Pest Control operations are licensed and regulated by the Structural Pest Control Board and apply to pesticides which are registered and approved for by use by the California Department of Food and Agriculture and the U.S. Environmental Protection Agency. Registration is granted when the state finds that, based on existing scientific evidence, there are no appreciable risks if proper use conditions are followed or that the risks are outweighed by the benefits. The degree of risk depends upon the degree of exposure, so exposure should be minimized.

ANTICOAGULANT REACTION:

If Rodenticide ingestion occurs, you may experience symptoms of mild shock or bleeding.

PESTICIDE REACTION:

If within 24 hours following application you experience symptoms similar to common seasonal illnesses comparable to the flu, contact your physician or poison control center and your pest control operator immediately.
