Mattress and Box Spring Bed Bug Encasement Measurement Instructions

It is very important to measure the correct size of your mattress and box spring for a proper fit. Improper fitting encasements could reduce the effectiveness and could possibly causing a tear making the encasement ineffective.

Simply follow the instructions below, when measuring your box springs and mattresses to assure that you order the correct sized encasement. It can create problems when the encasements are too big or too small.

**MATTRESSES AND BOX SPRINGS WILL HAVE DIFFERENT MEASUREMENTS
BE SURE TO MEASURE EACH ONE SEPARATELY.**

Use the following area to note the dimensions of the mattress and box spring. Always round up to the nearest whole inch.

It is best to use a tape measure to measure you mattress and box springs.

Mattress Height _____
Mattress Length _____
Mattress Width _____

Box Spring Height _____
Box Spring Length _____
Box Spring Width _____

1. Remove all linens, sheets, blankets, mattress covers, duvets, bed skirts, etc. from your mattresses and box springs.
2. **Measure the HEIGHT** – Measure the height of the mattress (round up to the nearest whole inch.) To measure the height of the mattress, measure from the bottom of the mattress where it rests on the box spring to the top of the mattress where you lay. If your mattress has a pillow top, be sure to include that in you measurements. To measure the box spring measure from the bottom of the box spring, where it rests on the frame to the top of the box spring where the mattress sets.
3. **Measure the LENGTH** – Measure the length of the mattress and box spring (round up to the nearest whole inch.) To measure the length of the mattress and box spring, measure form the top of the mattress and the head of the bed to the bottom of the mattress at the foot of the bed.
4. **Measure the WIDTH** – Measure the width of the mattress and box spring (round up to the nearest whole inch.) To measure the width of the mattress or box spring, measure from the left side of your mattress across to the right side.

IMPORTANT – The box spring measurements will be different from the mattress measurements.

If you have any questions regarding these instructions, please feel free to contact California American Exterminator on our toll-free number 1-800-540-0658 for assistance. To place order, please use Bed Bug Encasement Order Sheet and fax to 831-338-2435.
